[EPA Cover Letter FS Key Elements Comments JULY 15 2011.pdf](#)

Bob and Jim,

EPA's letter and comments providing our feedback and direction on the FS Key Elements Check-in are attached. We indicated at the Project Managers meeting that we would likely be sending the bulk of our comments by today but were still working on RALs comments. We were able to wrap up our comments on the RALs as well so we are sending one comment set. Please note that, in anticipation of more technical discussion on the RALs and LWGs approach to addressing these comments, we are providing an additional two weeks to the dispute deadline for these issues.

Give us a call if you have questions.

thanks
Chip
